09:30 **Welcome coffee and start of work**

10:00 **RTLS: from technologies to applications**

- Evolution of BlueUp offering: from Bluetooth beacon to a hardware ecosystem (BlueUp)
- Evolution of BlueUp offering: integrated solutions and RTLS systems (BlueUp)
- Location data enabling Location Intelligence (BlueGPS, Synapses)

11:00 **Nexus Break – coffee and networking**

11:30 **Mesh technology for scalable, wireless RTLS**

- How Wirepas Mesh technology works (BlueUp)
- Eye sees more with Wirepas Mesh (Teltonika)
- MeshCube: the RTLS middleware for mesh networks expands its functions and capabilities (BlueUp)

12:30 **Nexus Lunch – connections beyond the stage**

14:00 **Bluetooth LE: new frontiers in indoor localization**

- bleenc: BLE localization, real-time, secure, with interaction (BlueUp)
- RTLS and lighting: Bluetooth localization integrated into wireless lighting control systems (ZETAQLAB)
- RTLS and people flow detection: integrations, opportunities, use cases (Visionarea)

15:00 **Nexus Break – coffee and networking**

15:30 **Innovation takes shape: from device to project**

- From location to process: creating value in rolling mills through asset tracking (Pomini Long Rolling Mills)
- Beyond location tracking: how BLE and RTLS enable event orchestration (Blumit)
- Impact of the Cyber Resilience Act on IoT and RTLS devices and systems (BlueUp)

16:10 **Open discussion**

17:00 **Closing remarks**
